

Field recording days 2017

Harry Green.

There were three recording visits in 2017.

Saturday 3rd June 2017. Kyre Park, near Tenbury Wells. By kind permission of the owners and Sheila Harris, Estate Manager/Housekeeper. Several lakes with emergent and submerged vegetation, scrub, old trees and stone buildings. There were some interesting sculptures in dark passageway and on buildings.

Kyre Park sculpture one 03 June 2017

Kyre Park sculpture two 03 June 2017

Kyre Park sculpture three 03 June 2017

Kyre Park sculpture four 03 June 2017

Kyre Park lower Lake 03 June 2017

Kyre Park recording group at top lake 03 June 2017

Kyre Park top lake 03 June 2018

Kyre Park top lake 03 June 2018

Kyre Park middle pool 03 June 2017

Saturday 1st July 2017. Land near Hardwick Green, Eldersfield. Managed and being acquired by Worcestershire Wildlife Trust who gave us permission to visit. Important herb-rich flood plain grasslands, old hedges, ditches, streams.

Hardwick Green *Pseudovadonia livida* Fairy ring longhorn 01 July 2017

Hardwick Green Martin Skirrow amongst Great Burnet 01 July 2017

Hardwick Green, Great Burnet 01 July 2017

Saturday 5th August 2017. The Hawthorns, a farm near Staunton and Eldersfield in SW Worcestershire. By kind permission of the owner Chris Padfield. A visit to another part of the farm following our June visit in 2016.

Hedges, old trees, orchards, ponds, conservation field margins. We also visited field margins near Eldersfield church and Trevor Duke recorded many lichens on church and in the graveyard.

Eldersfield church visited on The Hawthorns day 05 August 2017

The Hawthorns legume field 05 August 2017

The Hawthorns. Muck heaps always attract biological recorders 05 August 2017

The Hawthorns. Rough grassland 05 August 2017
