Below is a list of the beetles I have recently collected from fungi on dead and decaying wood whenever the opportunity has arisen at the Shakenhurst estate in north-west Worcestershire.

01. *Triplax aenea*. A beetle associated with fungi on dead and decaying wood. K. McGee.

Table 1. Coleoptera recorded from fungi at Shakenhurst.

Family	Species	Status	Fungus	Host	Date
Ciidae	<i>Cis bilamellatus</i>	Common	<i>Piptoporus betulinus</i>	Birch	17.04.16
Ciidae	<i>Cis boleti</i>	Common	<i>Stereum hirsutum</i>	Alder	07.02.16
Ciidae	<i>Cis boleti</i>	Common	<i>Stereum hirsutum</i>	Birch	21.02.16
Erotylidae	<i>Dacne rufifrons</i>	Local	<i>Piptoporus betulinus</i>	Birch	07.05.16
Erotylidae	<i>Dacne rufifrons</i>	Local	<i>Polyporus squamosus</i>	Ash	30.05.16
Erotylidae	<i>Triplax aenea</i>	Local	<i>Pleurotus cornucopiae</i>	Beech	17.04.16
Monotomidae	<i>Rhizophagus dispar</i>	Common	<i>Pleurotus ostreatus</i>	Birch	24.01.16
Nitidulidae	<i>Eपुरaea biguttata</i>	Common	<i>Polyporus squamosus</i>	Ash	30.05.16
Staphylinidae	<i>Bolitochara bella</i>	Local	<i>Laetiporus sulphureus</i>	Alder	09.06.15
Staphylinidae	<i>Calodera aethiops</i>	Local	<i>Piptoporus betulinus</i>	Birch	10.04.16
Staphylinidae	<i>Micropeplus staphylinoides</i>	Local	<i>Piptoporus betulinus</i>	Birch	10.04.16
Staphylinidae	<i>Oxyporus rufus</i>	Local	<i>Laetiporus sulphureus</i>	Alder	09.06.15
Staphylinidae	<i>Quedius cruentus</i>	Common	<i>Pleurotus cornucopiae</i>	Oak	11.10.16
Tetratomidae	<i>Tetratoma fungorum</i>	Local	<i>Piptoporus betulinus</i>	Birch	21.02.16
